PROFESSIONAL RESUME · UAE / MIDDLE EAST

Damodar Dasi

Senior Mechanical Engineer · Projects & Packages. Experience across compressor packages, PSA nitrogen systems, fuel systems, storage tanks, mechanical skids and integrated package design.

PROFILE
Mechanical & Project Engineer

EXPERIENCE
6+ years overall · 4+ compressor/package

LOCATION
Sharjah, UAE

CORE SOFTWARE
SolidWorks · AutoCAD

PROFESSIONAL SUMMARY

Mechanical engineer covering engineering, project management and stakeholder coordination on equipment packages. My experience includes complete 3D package development, equipment arrangement, process and utility piping, lubrication systems, seal systems, structural/base frames, engineering drawings, MTO/BOM, multidisciplinary coordination, manufacturing support and FAT/SAT activities.

My project exposure includes international compressor packages, an ONGC PSA nitrogen generator, an Emarat mobile fueling unit, RFQ-stage fuel systems, storage tanks and mechanical/structural skids.

PROFESSIONAL EXPERIENCE

Nov 2025 — Present

Mechanical Design & Project Engineer

Meta Green Middle East FZ LLC · UAE

- Mechanical and package design for mobile and skid-mounted fueling systems, equipment packages, storage tanks and fabricated equipment.
- 3D models, GA/fabrication drawings and BOM/BOQ/MTO in SolidWorks and AutoCAD.
- Skid structures, equipment supports, piping, tanks, pumps and instrumentation; structural/mechanical calculations including weight, CoG and lifting considerations.
- Head of Design Department, Project Coordinator and Lead Mechanical Designer for the Emarat 40 FT dual-compartment MFU — tender through design, procurement, manufacturing, FAT and SAT.
- Same role on a demonstration portable fueling unit integrated with Maser Italia's smart fleet-management system, through manufacturing and commissioning.
- Approximately 25 storage tank designs from 500 L to 60 KL.

Apr 2023 — Oct 2025

Senior Design Engineer — Compressor, Compander & PSA Nitrogen Packages

DesignTech Systems · Atlas Copco onsite

- Led mechanical and package design for centrifugal compressor/compander packages and PSA nitrogen generator systems.
- Developed 3D assemblies in SolidWorks and 2D engineering/manufacturing drawings in AutoCAD.
- Worked on process piping, lubrication systems, seal piping, base frames, foundations, MTO/BOM and package integration.
- Led and trained a team of 6 designers/engineers: assigned design/drafting work, reviewed deliverables and drawings, and guided junior members.
- Supported customer/vendor coordination, manufacturing technical queries and FAT activities.

CORE EXPERTISE

Compressor Packages · PSA Nitrogen · Fuel Systems · Storage Tanks · Mechanical Skids · Package Integration · Process Piping · Lubrication Systems · Seal Systems · 3D Mechanical Design · Manufacturing Drawings · MTO / BOM · FAT / SAT

SOFTWARE

SolidWorks · **AutoCAD** · **Autodesk Inventor** · **AutoCAD 3D**

LEADERSHIP & COORDINATION

- Led and trained a team of 6 designers/engineers on Atlas Copco package work.
- Head of Design Department, Project Coordinator and Lead Mechanical Designer for the Emarat 40 FT MFU at Meta Green UAE.
- Assigned modelling and drawing work and reviewed junior deliverables.
- Trained junior engineers/designers.
- Coordinated with senior management, project managers, procurement, production, instrumentation and customers/vendors.

RECOGNITION

- **Guiding Star** (mentorship) ×2 — DesignTech Systems, Q1 & Q3 2023, for mentoring 6 people.
- **Star Performer** ×2 — DesignTech Systems, Q2 & Q4 2022.

Mar 2022 — Mar 2023

Design Engineer — Compressor Packages

DesignTech Systems · Atlas Copco offsite

- Compressor package 3D design, GA layouts and manufacturing drawings.
- BOM/MTO, interfaces and package integration; equipment sizing and calculations.
- P&ID / equipment-selection coordination, vendor/customer coordination and FAT/SAT support.

Dec 2021 — Feb 2022

Design Engineer — Apprentice / Trainee

DesignTech Systems

Mechanical design support for industrial equipment, silencers, air-exhaust systems and fabricated structures using Autodesk Inventor.

Oct 2020 — Nov 2021

Junior Design Engineer

Sai Jyothi Engineering Works

Mechanical/piping design and assembly support, 3D modelling and detailed drawings with GD&T, and fabrication/inspection support.

SELECTED PROJECT EXPERIENCE

C-01 · NYK N_2 Compander Package

4-stage N_2 compander for shipyard service · Korea · 29,605 kg/h. Complete 3D package, lube-oil and seal-gas systems, base frame, process piping, water-cooled coolers (intercoolers, after cooler, LO and motor coolers), GA, MTO/BOQ, customer/vendor coordination, manufacturing support and FAT. API 617 · 614 · 650 · 692 · ASME B31.3 · ABS rules.

C-02 · Xiexing Rudong BOG Compressor

1-stage LNG boil-off gas compressor · LNG Rudong Co., China · 28,296 kg/h · 1.05 → 1.67 bar(a) · −158.3 °C inlet. Complete 3D SolidWorks model, AutoCAD layout/manufacturing/foundation drawings, lube-oil system with air cooler, seal piping and instrumentation integration; reviewed the analysis team's stress report; manufacturing/FAT support. API 617 · 614 · ASME B31.3.

C-03 · Banyan FGB Natural Gas Compressor

4-stage natural-gas compressor · Sembcorp Cogen, Singapore · 36,980 kg/h · 13.21 → 50.8 bar(a). Complete package redesign and integration: process piping calculations, lube-oil and dry gas seal systems, water-cooled intercoolers and recycle cooler, noise hood, base skid, customer tie-ins and manufacturing/FAT support. API 617 · 614 · 692 · 520/521 · ASME B31.3.

C-04 · Sichuan H_2O_2 Compressor & Expander Package

2 × 3-stage air compressors + 2-stage expander on a common platform · China. Complete 3D arrangement, process piping, gas coolers, shared lube-oil system, lube-skid stress and foundation-load calculations, manufacturing/FAT support. API 672 · 617 · 614 · ASME B31.3.

C-05 · Maoming Air Compressor

3-stage steam-turbine-driven air compressor · China · 95,919 kg/h · 0.989 → 6.013 bar(a). Complete 3D package, filter-house inlet duct, process piping, water-cooled intercoolers, lube-oil system with overhead rundown tank; compressor-side coupling only (turbine customer-supplied); manufacturing/FAT support. API 672 · 614 · ASME B31.3.

P-01 · ONGC PSA Nitrogen Generator

160 Nm^3/h N_2 · 99.9 % · ~6 barg · ISO 8573-1 [2:4:1]. Main mechanical/package designer: 3D design, sizing of compressor, aftercooler, separator, dryer, 12 m^3 receiver and 25 m^3 N_2 buffer (ASME VIII / IS 2825), package P&ID with the process engineer, MTO/BOM, FAT and some SAT.

F-01 · Emarat Mobile Fueling Unit

40 FT dual-compartment MFU-3A · 42,600 L gross tank volume · UAE. Head of Design Department + Project Coordinator + Lead Mechanical/Package Designer from tender through design, procurement, manufacturing, FAT and SAT.

APPLICABLE STANDARDS & CODES

Project experience includes work associated with API 614, API 617, API 672, API 692, ASME B31.3, ASME Section VIII, UL 142, UL 2085, NFPA, ATEX/IEC, ADR where applicable, and ISO 8573-1.

EDUCATION & LANGUAGES

B.Tech, Mechanical Engineering

Pragati Engineering College, JNTU Kakinada · 2016–2020

Industrial Training

45-day training, Vizag Steel Plant — Blast Furnace Operations

English · Hindi · Telugu
