PROFESSIONAL RESUME · UAE / MIDDLE EAST

Damodar Dasi

Senior Mechanical Engineer · Projects & Packages. Experience across fuel systems, storage tanks, mechanical skids, compressor and PSA nitrogen packages, and integrated package design.

PROFILE
Mechanical & Project Engineer

EXPERIENCE
6+ years overall · 4+ compressor/package

LOCATION
Sharjah, UAE

CORE SOFTWARE
SolidWorks · AutoCAD

PROFESSIONAL SUMMARY

Mechanical engineer working on equipment packages, from design through project coordination. I build the full 3D package and equipment arrangement, design process and utility piping, lube-oil and seal systems and base frames, produce the drawings and MTO/BOM, and coordinate with the other teams through manufacturing and FAT/SAT.

Projects include international centrifugal compressor packages, a PSA nitrogen generator, the Emarat mobile fueling unit, RFQ-stage fuel systems, storage tanks and mechanical skids.

PROFESSIONAL EXPERIENCE

Nov 2025 — Present

Mechanical Design & Project Engineer

Meta Green Middle East FZ LLC · UAE

- Led design as Head of Design and Project Coordinator on the Emarat 40 FT dual-compartment MFU (42,600 L), taking it from tender through procurement, manufacturing, FAT and SAT to commissioning.
- Delivered a Maser Italia smart fleet-management demo fueling unit in the same role, through manufacturing and commissioning; it is now the reference unit shown to visiting clients.
- Designed about 25 fuel and process storage tanks from 500 L to 60 KL, with GA, nozzle schedules, supports and fabrication drawings.
- Designed 5 RFQ fuel systems from 1,000 IG to 65,000 L (F-02 to F-06) to UL 142 and ADR requirements, with GA drawings for each bid.
- Built 3D models, GA/fabrication drawings and BOM/BOQ/MTO in SolidWorks and AutoCAD, including weight, CoG and lifting checks for skids and supports.

Apr 2023 — Oct 2025

Senior Design Engineer — Compressor, Compander & PSA Nitrogen Packages

DesignTech Systems · onsite at Atlas Copco

- Led mechanical and package design of centrifugal compressor, compander and PSA nitrogen packages for international oil & gas clients, through manufacturing and FAT.
- Designed process piping, lube-oil and seal-gas systems and base frames to API 614, 617, 692 and ASME B31.3, with the GA, fabrication drawings and MTO/BOM.
- Led and trained a team of 6 designers, assigning and checking their drawings; recognised twice as Guiding Star for mentoring.
- Handled customer revisions and manufacturing queries during build and FAT.

CORE EXPERTISE

Compressor Packages · PSA Nitrogen · Fuel Systems · Storage Tanks · Mechanical Skids · Package Integration · Process Piping · Lubrication Systems · Seal Systems · 3D Mechanical Design · Manufacturing Drawings · MTO / BOM · FAT / SAT

SOFTWARE

SolidWorks · **AutoCAD** · **Autodesk Inventor** · **AutoCAD 3D**

LEADERSHIP & COORDINATION

- Led and trained a team of 6 designers/engineers at DesignTech Systems.
- Head of Design Department, Project Coordinator and Lead Mechanical Designer for the Emarat 40 FT MFU at Meta Green UAE.
- Assigned modelling and drawing work and reviewed junior deliverables.
- Coordinated with senior management, project managers, procurement, production, instrumentation and customers/vendors.

RECOGNITION

- **Guiding Star** (mentorship) ×2 — DesignTech Systems, Q1 & Q3 2023, for mentoring 6 people.
- **Star Performer** ×2 — DesignTech Systems, Q2 & Q4 2022.

Mar 2022 — Mar 2023

Design Engineer — Compressor Packages

DesignTech Systems · offsite

- Built 3D compressor package models, GA layouts and manufacturing drawings.
- Prepared BOM/MTO and equipment sizing, and coordinated P&ID and equipment selection.
- Supported vendors and customers through FAT/SAT; recognised twice as Star Performer in 2022.

Dec 2021 — Feb 2022

Design Engineer — Apprentice / Trainee

DesignTech Systems

Modelled industrial equipment, silencers, air-exhaust systems and fabricated structures in Autodesk Inventor.

Oct 2020 — Nov 2021

Junior Design Engineer

Sai Jyothi Engineering Works

Produced 3D models and detailed drawings with GD&T for mechanical and piping assemblies, and supported fabrication and inspection.

SELECTED PROJECT EXPERIENCE

C-01 to C-05 · Centrifugal Compressor Packages

N_2 compander for shipyard service (Korea, ABS); LNG BOG compressor (China); 4-stage natural gas compressor redesign (Singapore); H_2O_2 plant air compressors and expander on a common platform (China); steam-turbine-driven air compressor (China). Complete 3D packages, process, lube-oil and seal-gas systems, piping calculations, MTO/BOM, manufacturing and FAT support. API 617 · 614 · 672 · 692 · ASME B31.3.

P-01 · PSA Nitrogen Generation Package

160 Nm^3/h N_2 · 99.9 % · ~6 barg for an oil & gas operator in India. 3D package design and sizing of compressor, dryer, 12 m^3 receiver and 25 m^3 N_2 buffer from first principles; P&ID with the process engineer; MTO/BOM; FAT and some SAT.

F-01 · Emarat Mobile Fueling Unit

40 FT dual-compartment MFU-3A · 42,600 L gross · UAE. Head of Design, Project Coordinator and Lead Mechanical Designer, tender to SAT.

F-07 · Maser Demo Portable Fueling Unit

Demonstration unit integrated with Maser Italia smart fleet management · UAE. Head of Design, Project Coordinator and Lead Mechanical Designer through manufacturing and commissioning; now the reference unit for client verification visits.

F-02 to F-06 · Fuel Systems RFQ Designs

10,000 L skid-mounted diesel dispensing unit, 65,000 L and 30,000 L portable fuel stations, 1,000 IG petrol and diesel mobile stations. GA drawings, nozzle schedules and equipment interfaces to UL 142 / ADR for each bid; awaiting PO.

S-01 · Storage Tank Portfolio

About 25 fuel and process tanks, 500 L to 60 KL. Representative 6,000 L filter vessel to ASME VIII Div 1: GA, nozzle schedule, supports, design basis and test requirements.

APPLICABLE STANDARDS & CODES

Project experience includes work associated with API 614, API 617, API 672, API 692, ASME B31.3, ASME Section VIII, UL 142, UL 2085, NFPA, ATEX/IEC, ADR where applicable, and ISO 8573-1.

EDUCATION & LANGUAGES

B.Tech, Mechanical Engineering

Pragati Engineering College, JNTU Kakinada · 2016–2020

Industrial Training

45-day training, Vizag Steel Plant — Blast Furnace Operations

English · Hindi · Telugu
